### Text description (participants, content of meeting, main outcomes...)

#### GENERAL INFORMATION

This is the Kick-off meeting of the Slovakia-Serbia bilateral project no. 001147721/018. This meeting has a purpose to start the active cooperation between two teams and define actions in the next period, with focus on 2026.

On the Kick-off meeting were: Silvia Vilcekova, Eva Kridlova Burdova, Katarina Harcarova, Jana Budajova and Alena Sicakova from Kosice, and Daniela Arsenovic, Jelena Dekic, Milica Vasic and Stevan Savic from Novi Sad.

The meeting topic and discussion:

- 1) Both teams agreed that the first onsite meeting will be in Kosice in end of September or beginning of October 2026, and the second onsite meeting will be in Novi Sad until the end of 2026 (November or December).
- 2) Until September 2026 both teams will create the list of 5-6 stakeholders from both cities that will be involved in the project actions.
- 3) Common review paper – until end of May the concept will be finished, and until the end of September or October will be submitted. The review paper will cover the urban climate and urban sustainable development papers published in Slovakia and Serbia in the last 20 years. This is the first outcome of the project. Up to know there is no such kind of systematic analysis of publications, datasets and modeling outcomes provided in both countries. Therefore, this publication will contribute better scientific connections between Slovakia and Serbia.
- 4) Visibility actions – until July 2026 team from Serbia will create the project webpage within the Faculty`s website. Also, by using the Novi Sad Urban Climate Lab LinkedIn profile and YouTube profile will be posted activities and results of this project.
- 5) Dataset preparation – until the next online meeting both teams will prepare available datasets in with the goal to discuss and plan further research actions within this project.
